New modern website with fresh sleek web design: Your business will be seen on Google -Your online and Google presence will be maximised and managed. We make sure your business is seen and can be found on page one of Google for the searches that bring you more business.

Depending on your requirements, your website and management package will include some or all of the following:

New modern design features with up to 20 pages

Search Engine Optimisation (Let customers find you on Google, Bing, Yahoo etc)

Social Media account management (Social media pages built & amp; managed for your business)

Google Map Submission (We list your business with Google so people nearby can find easily)

Index listing (We list your business with Yell, Bing and up to 15 others)

Customised Dashboard/Control Panel based on your business requirement Monthly Google analytics report which shows how many people have visited your website
