F20/F30 Series DME Replacement for 4-6 Cylinder Engines: Experiencing performance issues or system faults in your BMW F20 or F30 series? It could be a failing Digital Motor Electronics (DME) module. At B-MA Services, we specialize in DME replacement for 4-6 cylinder engines, ensuring your car operates at its best.

Our DME Replacement Service Includes:

Thorough Diagnostics: Advanced tools to accurately identify DME-related faults.

DME Replacement: Installation of a new or refurbished DME unit, adhering to OEM standards.

Coding & Programming: Seamless integration of the DME with your vehicle's engine and electronic systems.

Performance Testing: Comprehensive checks to ensure optimal functionality post-installation.

The DME is the brain of your vehicle, controlling critical engine operations such as ignition and fuel management. Don't let a faulty unit compromise your driving experience.
